

## **Kingsley Bate Amelia Daybed Information**

### **ROPE**

**Rope Source:** Knot & Rope Supply (<https://www.knotandrope.com/>)

**Rope Type:** 1" Pro Manila Rope

### **Special Features:**

- 1) 3-strand Eye Splice (Note: this is for the 'pre-made' loop in the rope)
- 2) Heat Shrink End

### **Required for one Daybed:**

Four (4) pieces of rope, each with a pre-made loop on one end (if desired). Length will depend on your specific application. If applicable, be sure to discuss the spliced loop-size with Knot & Rope when determining the actual finished length of your rope.

### **Suggested Next Steps:**

**Contact Knot & Rope Supply** directly to discuss your specific needs and application. When reaching out, it may be helpful to have with them the link to the Amelia Daybed: [AuthenTEAK Amelia Daybed by Kingsley Bate](#), so they can view the rope, loop size, and splicing method featured in the daybed images.

**Consult with a professional installer** to ensure the safety and integrity of the daybed's installation.

### **Disclaimer:**

The information mentioned in this file is provided purely as a courtesy by Kingsley Bate and AuthenTEAK, and is intended only to identify the rope used in their catalog photography, and we strongly advise against using the daybed as a swing or in any manner inconsistent with its intended use.

By utilizing this information, you acknowledge and agree that any decisions, purchases or installations made are at your own risk and discretion and that neither Kingsley Bate or AuthenTEAK bears no responsibility or liability for any outcomes resulting thereof.

### **Professional Installation Required**

To maintain the safety and longevity of your Kingsley Bate Amelia Daybed, professional installation is essential, and we encourage due diligence in choosing materials and installation methods suitable for your unique circumstances.
