

Solar radiation can dramatically change the temperatures of an object that it hits, heating it far above the actual air temperature. The proper shade over your dining or deep seating areas can reduce the temperature up to 20%.

A sweltering 95° can become a comfortable 80° with the proper shade!

SIZE/SHAPE	DINING	DEEP SEATING*	STYLE
16.5' SQUARE  266 sq. ft. coverage	84"-108" table 		CENTER POST AST-50S
